WASHINGTON. — Belated reports of accidental deaths during the Memorial Day weekend ran the already record toll still higher Wednesday.

Final tabulation Wednesday for the period between 6 p. m. Friday and midnight Monday showed the totals were 369 in traffic accidents, 131 drownings and 96 in miscellaneous accidents.

The traffic toll exceeded the previous record of 363 set in 1952. The over-all total of 596 also was a new record. Last year the respective figures were 362, 93 and 84.

MADISON, Wis.—The Wisconsin supreme court ruled Wednesday that the Joe Must Go club did not violate the state corrupt practices act when it sought unsuccessfully last year to recall Senator McCarthy (R) of Wis.

The high court reversed the decision of Circuit Judge Bruce Beilfuss of Neillsville who fined the club \$200 on each of 21 counts of violating state election laws. The supreme court held there was insufficient evidence to sustain the charge.

NEW YORK.—Allen W. Dulles, director of the U.S. central intelligence agency, said Wednesday that Soviet leaders are undermining their own dictatorial control—through improved education of the people.

"In introducing mass education, the troubled Soviet leaders have loosed forces dangerous to themselves," Dulles said in a speech at Columbia university's commencement day luncheon.

"It will be very difficult for them henceforth to close off their own people from access to the realities of the world."

NASHVILLE, Tenn.—The Southern Bell Telephone Co. sued the Communications Workers of America for \$5 million Tuesday in a state circuit court suit for damages in the recent telephone strike.

The company, seeking both compensatory and punitive damages, charges the CIO union and its officials with responsibility in numerous acts of vandalism during the long strike which started March 14.

The petition accused the defendants of an "unlawful combination and conspiracy."
